

Smoky Mountain Classic  
Thunderbird Club...

is a not-for-profit organization based in the greater Knoxville, TN, area. There were a total of 53,166 Early Classic ('55, '56, '57) Thunderbirds and 68,098 Modern Classics ('02, '03, '04, '05) produced with a high percentage still registered and enjoyed by their owners and the public at large.

As the primary focus of the club is the restoration, preservation, and enjoyment of the Classic 2-passenger Thunderbirds; both the Early Classic ('55-'57) and the Modern Classic ('02-'05). Our events include tours, parades, public displays, technical sessions, and participation in CTCI Regional and International Thunderbird Concours events.
